Reading Time: 1 min

The **cut-off date** determines when your fundraising will officially end. After this date, your page will no longer accept donations.

1. To set or update the cut-off date, go to **Site Builder**.
2. Navigate to **Features**.
3. Select **Donations > Donation Form**.
4. Set your desired **Cut-off Date**.

Once saved, donations will automatically stop after the selected date.
