

# Updating your Navigation

**Category:** Website Building

**Published:** Jan 20, 2026

**Reading Time:** 1 min

To make your website more appealing to visitors, you can always add more menu options to make the navigation easier.

You visit **Site Builder > Layout > Header**, and click on the option **Modify Menu**.

Once you select **Modify Menu**, you will need to create a New Item.

In the Modify Menu is also the area where you will rename your navigation bar items.

Menu 1  
Manage the header menu.

Layout > Header > Menu

**+ New Item**

- Home**  
This item will go to Home.
- Register/Login** ✖  
This item will go to Register/Login.
- Donate to a Participant**  
This item will go to Donate to a Participant.
- Make a General Donation**  
This item will go to Make a General Donation.
- Tickets** ✖  
This item will go to Tickets.
- Leaderboard** ✖  
This item will go to Leaderboard.
- Photos**  
This item will go to Photos.
- About Us**  
This item will go to About Us.
- Contact Us**  
This item will go to Contact Us.

Once created, you can select any of the options, but in this case, we will use the dropdown as an option.

**Create item**

Type

- Open this select menu
- Open this select menu**
- Custom
- External
- Dropdown**
- Logout
- Client Site Dashboard
- Contact Us
- Custom HTML

**Create item**

Title

and give it a title.

After you give the dropdown a title, you will be able to visualize it in the menu navigation below. To add a tab to the dropdown, drag and drop the desired tab.

● School Fundraiser
