Reading Time: 1 min

In order to accept payments on your MyEvent website, you must first complete the ID verification process.

This verification process protects you (our clients) against fraud, and enables us to comply with regulations.

The process is fast, simple and easy.

To Start the Verification Process:

Click the button at the top of your Dashboard screen that says "**Click here to Start Identity Verification**", then click "**Start Onboarding**", and follow the instructions.
