The Works Package

Both Premium and **The Works** plans from MyEvent give you a fully customizable, multi-page website with tools designed specifically to help you plan, promote, and manage your event or fundraiser online.

Both Premium and **The Works** are much more powerful than the free Basic plan, but the Works plan goes a step further by expanding capacity and adding advanced features. The Works package gives you more: pages, custom forms, photo capacity, family trees and more. The works also supports **Multi Language** sites.

The Works is essentially *Premium elevated*. It gives you **more space and tools** to build out your content, collect more data, include more photos and forms, and operate in multiple languages if needed. It’s ideal when your reunion is big, complex, or you want extra polish and flexibility.

To view and compare details of the Works package, visit the Pricing page.
